

# Class Project 3 - Shared iPad

## Assignment Details

Automata Technology Services LLC

Revision 1.0

## Scenario

You have been assigned a small project in your company to build ten general-use iPads for the executive boardroom. These iPads will be used by guests who will need to check their email, browse the web, and do some light work with Pages, Keynote, and Numbers. The iPads should not store any local data to protect the privacy of the various users who use them.

## Required Assets

- iPad Wallpaper.

## Required Organization Changes

- Device Group in Mosyle MDM for Shared iPad devices

## Device Configuration End-State

- Support for Shared iPad and set to skip All Setup Assistant steps.
- WiFi Network for Company's WiFi (SSID for students) set to auto-join.
- Install these Required Apps:
  - Keynote
  - Pages
  - Numbers
- Device Restrictions
  - Do not allow device name change
  - Do not allow wallpaper change
- Wallpaper on Home Screen and Lock Screen is the iPadOS Wallpaper (asset).
- Lock Screen provides an 'if found return to company' message
- Configure the Home Screen to show only Safari, Files, Pages, Keynote, and Numbers, hiding all other Apps.
- Rename the Device to include the Product Name & Serial Number
