Apple Remote Desktop

Introduction to ARD

Lecture

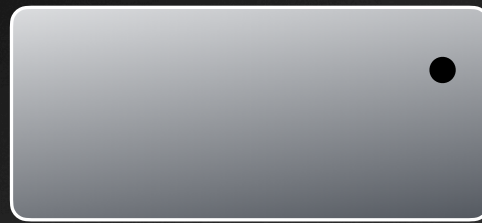

Apple Remote Desktop

- Inexpensive compared to some endpoint management solutions. \$79.99 on the App Store.
- Ideal for managing a small number of Macs (Small Business or Workgroup).
- Not ideal for enterprise and remote access outside of an organization's network can be hit or miss (dependent on your network setup).
- Not an MDM.

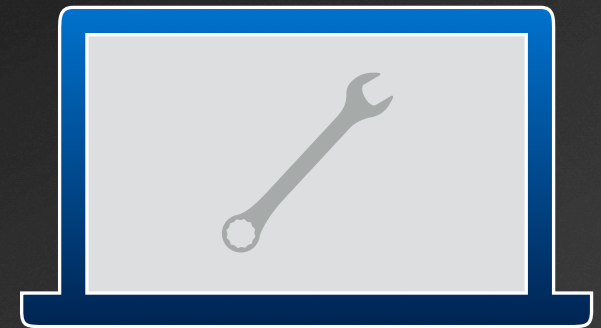

ARD Installation Options

**Remote
Task
Server**

**Dedicated
Mac
"Server"**

**Technician's
Mac**
